**Promises To Pass Measure To Avert
Traffic Strike—Leaders Demand
Eight-Hour Day and Probe
Feature.**

Washington, August 31—Belief grew in all quarters tonight that the great railroad strike called for next Monday morning would be averted. At the close of a day of conferences and hearings Congress apparently was prepared to pass tomorrow or Saturday the eight-hour day legislation which heads of the employees' brotherhoods have declared officially will cause them to telegraph the code message necessary to revoke the strike order.

Although President Wilson still desires strongly to see his whole legislative program accepted and Democratic leaders in the Senate have ideas of their own about what should be done, administration spokesmen virtually conceded tonight that the bill finally passed would provide only for:

An eight-hour day for trainmen in interstate commerce, effective December 1 or January 1, with the present ten hour rate of pay and pro rata overtime; and

A small commission appointed by the President to investigate the working of the law from six to nine months and report to Congress.

Vote This Afternoon

This with the date, December 1, is in substance to Adamson bill, revised by Representative Adamson and Democratic Leader Kitchin after conferring with President Wilson and which A. B. Garretson, spokesman for the brotherhood, stated formally late today would be considered a "satisfactory settlement" and prevent the walk out. Tonight the Senate Interstate Commerce Committee agreed to report out a similar bill, with the date, January 1, and roads under 100 miles in length and electric street railways and interurban lines exempted.

The House will meet at 11 o'clock tomorrow morning to take up the Adamson measure and the majority leaders have agreed upon a special rule providing for a vote at 4:30

o'clock in the afternoon. The Senate meets at 10 o'clock to begin consideration of its committee bill, with the administration leaders determined to keep the body in continuous session until it is passed.

can prevent prompt action and the administration is confident Senators will not carry their opposition so far as to make it impossible to get the necessary legislation through both houses by midnight Saturday.

Strike Will Begin at 7 A. M. Eastern Time Across the Continent

Washington, August 31—Railroad brotherhood leaders in response to many queries as to the hour set for the nation-wide strike, explained tonight that the strike order if not rescinded would be simultaneously effective throughout the country, Monday morning at 7 a. m. Eastern time.

Mrs. Rosa Bauer, who has been ill at her home on Limestone street, is improving rapidly.

LOCKJAW

**Causes the Death of Young Clarence
Rigdon in the Hayswood Hospital
Here Yesterday.**

Lockjaw, or tetanus, was the cause of the death of young Clarence Rigdon of Dover, in the Hayswood Hospital in this city yesterday.

Several days ago the boy was playing his home in Dover when he ran a splinter into his foot. His mother pulled it out but inflammations set in and the foot swelled up unnaturally. He was brought to Hayswood Hospital yesterday where it was discovered that he had tetanus. The boy died about 5 o'clock. The body was removed to the undertaking parlors of Myall & Calvert.

Young Rigdon was about eight years of age and the son of Mr. and Mrs. Sam Rigdon of Dover. He was a bright young fellow and well liked by his many friends and associates.

The funeral will be held this afternoon at 3 o'clock in the Shannon Church. The burial will be made in the Shannon Cemetery.

C. & O.

**Declares Embargo on Perishable
Freight and Livestock—Effective
Yesterday Afternoon—Another
One Goes Out Tonight—
Letter Sent Out By
President Stevens**

Yesterday Mr. W. W. Wilcox, the local agent of the C. & O. Railroad, was notified that an embargo would be placed on certain shipments yesterday and certain others today. The C. & O. lines were among the first to declare such an embargo only about ten roads being in advance.

The embargo orders are as follows: First; Effective at the close of business, August 31, on all shipments of explosives and inflammable materials of every kind and description and on all shipments of live stock and perishable freight.

Second; Effective at close of business, September 1, on all freight of all kinds from all points for all destinations. All freight as above described which may be in transit will not be accepted from connections at any junction points after dates issued, regardless of date of billing or date accepted. A bill of lading issued on and after August 31 and until further notice must bear notation as follows: "This shipment accepted subject to delay, loss of damage on account of threatened strike."

The embargo orders are causing a great deal of loss to the railroads in the country and it is hoped that some agreement will be reached whereby the strike can be averted. A strike lasting a week would paralyze the business of the entire country.

The river is now at such a low stage that it will be almost impossible for packets to run heavily laden. A big strike would bring a great many river crafts into use for transportation and Cincinnati and vicinity would probably suffer less than any other locality in the middle west.

President Stevens' Letter

The following letter from George W. Stevens, President of the C. & O. Railroad, was received here yesterday by local trainmen:

Richmond, Va., August 30, 1916.
TO THE EMPLOYEES AND TO THE PUBLIC:

A crisis having arisen in the relations between the employees engaged in train and yard service and the Chesapeake and Ohio Railway Company, and it having been decided by the men representing the employees to order a strike, effective Monday, September 4th, to enforce their demands, it is due to those employees who are affected, and vitally interested in this movement, and whose positions are placed in jeopardy if a strike is undertaken, to other employees whose work and compensation will be temporarily suspended by reason of the stoppage of trains, and to the public whose comfort, welfare and business activities will be seriously disarranged, that a full and correct statement of the whole issue involved in this controversy should be presented.

The representatives of the train and yard men have demanded that overtime shall begin after eight hours service either on the trains or in yards, in lieu of the existing agreements, which at the time they were negotiated and agreed to were considered extremely liberal. The term, "An eight hour day" is a misnomer when considered in connection with railway train service. Employees in this service are paid on either the basis of miles run or hours consumed, whichever will produce the greatest wage. In other words, the computation is made on the basis of eleven miles per hour, and if that average is not maintained, overtime on a pro rata or on a more liberal basis is paid for all additional time consumed. Employees in yard service are liberally compensated on the basis of ten hours of service, and when overtime is made the remuneration is on a pro rata or higher basis.

The railway companies have proposed to continue paying the men who are involved in this movement on the same basis as heretofore, and set up a new account with each man, based on twelve and one-half miles per hour in freight service, and eight hours per day in yard service, and pro rata overtime, effective September 1st, 1916; the supervision of the accounting to be under the direction of the Interstate Commerce Commission, and the money to be held in the treasuries of the railway companies pending a decision by a commission to be appointed by the President of the United States to determine whether the employees are entitled to the full amount or to a percentage of the same, or to decide if the present compensation is adequate. This commission to be composed of men not in any way involved in the controversy.

The Chesapeake and Ohio management, whose relations with its employees have heretofore been so entirely satisfactory and whose aim is now, as before, to accord fair treatment to every one in the employ of the Company, considers this proposition to be an eminently fair one, and one that should be accepted.

carried by them in the order with which they are associated, the Railway Company offers to take over this insurance and continue to carry the same on as favorable if not better terms than they now enjoy. Any employee who desires to continue in the service and who will make application stating the conditions under which he is now insured will be afforded the fullest protection.

It is to be hoped that the public, which is so vitally interested in the continuation of railway train service, will exert themselves to the utmost to persuade employees to continue at work, and will appreciate the justness of the Railway Company's attitude.

GEO. W. STEVENS, President.

L. & N. To Operate Line

The L. & N. officials have decided to operate their lines if the strike order goes on Monday morning. The clerks in the offices in Lexington, Louisville and other points have volunteered to do this to run the trains. They hope however that the strike will be called off.

MAN DROWNED

**Near the Government Works Just East
of the City Yesterday Afternoon
About 5:30 O'clock—Body
Recovered.**

Yesterday afternoon about 5:30 o'clock a man was drowned off the steamer Greenland just above the city. The body was recovered by the crew of the boat.

The man had been shipped from an employment agency in Cincinnati, drunk. When above the city the boat was grounded on a bar and during the work to get it off the bar, the man, known as "Humpty" to the rest of the roustabouts, rolled off into the river. His body was recovered by the crew of the boat and turned over to the authorities at the government works who held the body until the arrival of Coroner Slack.

The coroner's investigation showed very little. The man was about 30 years of age and dressed in a blue shirt and had on two pairs of trousers. In his pockets was found only a broken spoon. There was no mark or scar on the body by which it could be identified. The body was brought to the undertaking parlors of Coughlin & Co.

Effort will be made today to learn of the whereabouts of the man's relatives, if any, through the agency that shipped him.

THE DEMOCRATIC CHOPE

It is of the utmost importance to the country's future that voters shall analyze critically the present government's course of action and determine whether it indicates ability to advance our interests and insure our safety in the troublous times approaching. By such analysis alone can we judge intelligently whether it was because of Mr. Wilson's action or in spite of it that we have been kept out of war, and only by such analysis can we estimate what the price of our present peace is and is likely to be and what the future promises. If the American people is so weak and degenerated from its former vigorous self that it will blindly accept the sop of immediate peace and refuse to consider whether it has been wisely purchased or how it has been achieved, then by all means let us have no criticism of the last four years and merely drift into the future. If, however, we wish to have foresight, we must first use hindsight. The hopes of the Democratic campaign depend on the acceptance by a majority of the American people of the theory that the country is now enjoying "peace and prosperity" as a result of Democratic policy. If there were no analysis of the nature of our peace nor of the sources of our prosperity this theory might well prevail. We have confidence that a majority of the American people will see its fallacy.—Chicago Tribune.

NEW YORK LETTER

(From Our Regular Correspondent)

Still Jumping Taggart—Some of Senator Tom Taggart's Democratic colleagues have been jumping on him pretty severely for his criticism of Democratic extravagance, but the figures submitted by the Indiana Senator seem to afford good ground for his ammadversions. He cites, for instance, the case of the postoffice at Falmouth, Ky. The town has a population of 1,274. The appropriation is \$30,000 and the cost of maintenance, figuring interest on the investment at \$1,140 and including other necessary expenses, will be \$3,742 a year, or nearly \$3.00 a piece for every soul in the town. Mr. Taggart quotes similar figures in the cases of Roseville, Ga., and Hazard, Ky. He shows \$35,000 appropriated for Mt. Olive, N. C., with a population of 1,071; \$25,000 for Huntington, Tenn., with a population of 1,112; \$40,000 for Clear Water, Fla., with a population of 1,171. "If this bill succeeds in getting through Congress," declared Senator Taggart, "the President should come to the rescue of the Treasury and veto it at once." "Instead of squandering money in catching cattle ticks, killing coyotes, poisoning ground squirrels, doctoring wild ducks, treating goats suffering from Malta fever, sending out useless garden and vegetable seeds, passing pork barrel river and harbor bills and pork barrel public building bills," says Senator Taggart, "would it not be better to get down to bed rock economy and cut these useless expenditures off and save the people from the never-ceasing visits of the tax gatherer?" Mr. Taggart's total failure to grasp the fundamentals of Democratic policy is explained by his Democratic colleagues by the fact that he has been a member of the Senate only since April.

Democracy and Business—Interesting testimony regarding the rubber in-

dustry, the effect of the existing tariff, etc., furnished by Jesse E. La Dow, of the Mansfield (O.) Tire and Rubber Co., has attracted attention in New York. Mr. La Dow declares that had not the European war saved the situation his institution would have had to close down, as would most of the rubber manufacturers in this country. He was promptly charged with having Republican interests at heart when he came back with the assertion that there was only one Republican among the eight directors of his company, while the only director who did not regard a restoration of the Republican tariff on rubber essential to the success of the industry was an office-holder under this administration.

Mr. La Dow asserts that the wages in European rubber factories are \$1 a day, as against \$3 in this country, and that the Europeans have all the improved machinery which is used here. And further, that as London is the great distributing point for rubber, the American is compelled to pay for the extra handling, the freight and the middleman's commissions to get his raw material to the factory. He asserts that following the reduction by the Underwood bill the imports of rubber increased 43 per cent when the importation was checked by the war. And that was just as the European producers were getting a foothold in this country.

It is unreasonable to expect from the Democratic party legislation which will protect and foster American manufacturing, Mr. La Dow contends. "The present Wilson administration," from the way it is organized, cannot have sympathy with the manufacturing industry of this country," he says. "The manufacturing industry is north of the Ohio River, while the President and nearly all of the members of his cabinet were born and reared in the South. The greatest committees of Congress, Ways and Means and Finance, have chairmen from North Carolina, where they cannot possibly be ground-

ed to have anything in common with the great manufacturing industry of the country."

STANDS AGAINST ELECTION CONTROL BY LIQUOR MEN

Rodney Keenon Explains Fully His Position in State Board Matter—Will Uphold the Law—Responsible to People Only and is as Good a Democrat as Any Member of Party.

Frankfort, Ky., August 30—R. W. Keenon, Clerk of the Court of Appeals and by virtue of his office chairman, of the State Election Commission, has given out a statement setting forth his position in the controversy over the appointments to the board. He says that he is as good a Democrat as R. C. Oldham, of Carlisle, Democratic member of the board.

He made the following statement: "In view of the fact that quite a lot has been said in the newspapers in the last few days in regard to my action as chairman of the Board of Election Commissioners, I feel it is both a duty I owe to myself and to the Democracy of Kentucky to say something to the public as to my position in this matter.

"I was nominated in the same primary as all other State officers. I was elected at the same general election as my fellow-officials. At the time of the nomination and election the people knew the duties that each were to perform. By virtue of my office as Clerk I am chairman of the Board of Election Commissioners of the State, and as chairman I owe no allegiance to any man or set of men and to no one save to my constituents. As I was elected by the people, I am responsible to the people for my conduct in office.

Oldham Absent

When the board was organized Mr. Oldham, the Democratic member, was not present, although he had notice by newspaper at least of the meeting. As a courtesy to him, and in order that all the commissioners might be present, we refused to hold a meeting until Mr. Oldham could attend, and we therefore adjourned until the next day.

"I called Mr. Oldham over the telephone and requested that he come to my office in order that we might confer as to the appointments of election commissioners and the organization of the board. He promised to come, but when he arrived in Frankfort he failed to show up as per his agreement.

Saw McGregor

"I learned that instead of coming to see me, a Democratic member of the board, he consulted with Mr. McGregor, the Republican member of the board, and tried to get him to agree on the secretary and as to the selection of Election Commissioners. Not only that, he expressed to Mr. McGregor, before the contest between Kirk and Sampson was heard, as to his preference in the matter.

"Before the board met I asked Mr. McGregor if he would vote for Pennington for secretary, a man I had promised to vote for after the election and before I knew Mr. Stewart was a candidate. He did not promise outright to do so, but after two votes of the board he changed from Wells, Republican, to Pennington, Democrat. Mr. McGregor did not mention to me as to who he expected to vote for as between Kirk and Sampson, nor did he ask that I vote for either of these gentlemen. I voted to issue the certificate to Judge Sampson because, if the law is mandatory as to the time, the statement should set out in detail the various parties to whom the money was paid and for what purposes paid.

Kirk's Statement

"The statement of Judge Kirk did not meet this requirement of the law nor did Sampson meet this requirement, and, as both had violated the law, I was of the opinion and so voted that the will of the people should prevail, rather than the one who complied only with a part of the law.

"As to the reasons for McGregor's resignation, I have no knowledge nor information. I have never talked to any of the Republican Campaign Committee and know nothing as to their plans. I presume, however, they recognize that I am a member of the board and equally as good a Democrat as Mr. Oldham or any one of those back of him.

Duty of Commissioners

"The commissioners to be appointed by the board when they meet not only appoint the election officers in November, but they also appoint the election officers in the next August primary. The people of Kentucky know that this is a fight within the Democratic party. The election of Senators and Representatives at the next primary is important.

Strong for Wilson

I am for President Wilson, and my

friends are as strong, if not stronger, for Mr. Wilson than those who oppose my position, but I am equally as strong and positive that I will do all that I can to prevent the domination of the Democratic party and the control of the election machinery by the whiskey interests of Kentucky, and therefore that I will try to exercise in the selection of election commissioners when our board meets.

His Right

"As to precedent I am not familiar, but the law gives me the right, as a member of the board, to vote, and I expect to exercise the prerogative. I have been informed that when Senator J. C. W. Beckham was the nominee of the Democratic party that both he and his campaign manager, Mr. Thomas Rhea, asked the election board to select certain Democrats designated by them. The board at that time refused to comply with the request. Last year when the Democratic organization in the city of Louisville asked the Democratic members of the board to vote for certain ones for election commissioners they refused to do so until compelled by the court.

Will Do His Duty

"I expect to do my duty according to law, but I understand that some would violate not only precedent, but law, in ignoring completely a list submitted regularly by the Republicans Mr. Oldham, who is so vehemently for the law, stated only yesterday that if he were in Gov. Stanley's place he would ignore the Republican list and select a Republican of his own choice. While it is true Mr. Oldham is a Democrat, it is equally true that I am just as good a Democrat and a member of the board, elected by the people and accountable to them, and not appointed by one man and accountable to him.

Could Not Agree

"The Democratic Commissioner, Mr. Oldham, and myself, at the suggestion of some of the Governor's friends, did meet, but we could not agree in several instances. I suggested to Mr. Oldham that I would vote for any Democrat recommended by the organization in the various cities in Kentucky for the reason that I recognized that in cities organization is essential, and, therefore, that the organization should name its commissioners.

"When the name of Mr. Reedy, from Louisville, was suggested, Mr. Oldham was not ready to agree as to him. When I suggested the top name from Fayette, he was against him. If anyone can point to me a single commissioner that I favor in the State of Kentucky who is not a Democrat, who did not vote for Gov. Stanley last fall, who is not for honest elections, then I will vote for some other man in the list; but until that is pointed out to me I expect to insist upon my rights and try to name at least some of the Democratic commissioners in Kentucky. It is not a question, as some would have us believe, as to whether Mr. Oldham selects the Democratic commissioners, or whether the Republican select them, but it is a question whether Mr. Oldham selects them or whether I select at least a part of them.

Plan to Ignore Him

"I might state that before the Republican commissioner was named several gentlemen visited one or more of them on their list and attempted to get an agreement that the Democrat designated by the Governor name the Democrats and that the Republican designated by the Governor name the Republicans. In other words, that it was not to be considered and to be completely ignored, and it was not until after it looked like they could not handle Republicans, that either Mr. Oldham or anyone else visited me to even to attempt to get an agreement as to the election commissioners in this Commonwealth.

Within Rights

"Under these circumstances I believe that I am within my rights and within the law when I try to have some say in the selection of commissioners and some say in whether or not the Democratic party and the election machinery is to be controlled by the liquor interests in this State. I believe in fair elections. I am against whiskey domination in our party, and as a member of the board expect to cast my vote along these lines."

IMPOSTER

A man representing himself as a Federal Inspector of Weights and Measures, is a broad in the land, and you are at liberty to eject him from your premises in any manner, and through any opening that the emergency may suggest. He worked Pike and Ross counties last week and may turn up in Greenfield. He will inspect your scales, test your measures, find a bunch of faults, and offer to sell you something in the way of scales and measures that will keep you out of the penitentiary.

With this information you will know how to proceed if he makes you a visit. Greenfield (O.) Republican.

ARE YOUR KIDNEYS SICK?

Many Maysville People Have Kept Well By Keeping Their Kidneys Well.

The first symptom of kidney trouble may be only a slight pain in the back, a feeling of stiffness or soreness in the loins, or some annoying irregularity of the urinary passages. Urine is often discolored and perhaps sediment gathers upon standing. Next may come a dull, throbbing headache, sharp, knife-like pains, dizziness, when arising in the morning. No one can afford to delay until these troubles become serious. Begin using Doan's Kidney Pills, the tried and tested kidney remedy that has won the praise of thousands. Maysville readers should find convincing proof of merit in the following statement. It's from a resident of this locality.

A. Sorries, locksmith, Aberdeen, O., says: "The action of my kidneys was irregular and the kidney secretions contained sediment. I had backache and when stooping, it was hard for me to straighten up. Colds always settled on my kidneys. I used Doan's Kidney Pills and they stopped the trouble and my kidneys became strong." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sorries had. Foster-Milburn Co., Props., Buffalo, N. Y.

THE RIGHTS OF AMERICAN CITIZENS DO NOT STOP AT THE COAST LINE.

"When I say that I am an American citizen, I ought to say the proudest thing that any man can say in this world. But you can't have that pride if American citizenry is a cheap thing, if it is not worthy of protection this wide world over. There is no man who could successfully present to an American community the platform that an American citizen's rights stop at the coast line and that beyond that American life is to be the prey of any marauder who chooses to take it."—From a speech of Mr. Hughes in the West.

A lover hopes for too much; a husband knows too much.

THE JOY OF MOTHERHOOD

Words of Encouragement to Childless Women.

Motherhood is woman's natural destiny, but many women are denied the happiness of children simply because of some curable derangement.

Among the many triumphs of Lydia E. Pinkham's Vegetable Compound is its marvelous power to overcome such derangements, as evidenced by the following letter:

Worcester, Mass.—"I suffered from female ills, and was advised to have an operation, but a friend who had taken Lydia E. Pinkham's Vegetable Compound and who has six children, told me to try it. It has helped me so much that I am now well and have a baby boy who is the picture of health, and I thank the Vegetable Compound for my restoration to health."

Mrs. BERT GARVEY, 20 Hacker St., Worcester, Mass. In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong. Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential.

BAD ACCIDENT

Last evening about 7:30 o'clock a rather bad auto accident occurred in the West End at the junction of West Third street and the Germantown pike. Mr. and Mrs. C. L. Lane and two children of Niagara Falls, New York, had been on a tour through Kentucky and were coming to Maysville to spend several days with Mr. and Mrs. R. B. Owens. When they reached the junction of these two roads they took the road leading up West Third street. When about half way up the hill they decided that they were going in the wrong direction and decided to return and take the other way. In backing down the hill, Mr. Lane, not being familiar with the fact that there was a large hollow at the base of the hill, allowed the machine to plunge into this hole. None of the occupants were injured but the machine was badly damaged. It was a very narrow escape as the hollow at this point is quite deep.

FLEMING COUNTY TEACHERS' INSTITUTE CONVENES

Flemingsburg, Ky., August 30.—The Teachers' Institute convened at this place last Monday morning, the 28th inst., for a term of five days with Prof. Keith of the Richmond Graded Schools as instructor. MORE CUBAN CARS

Quite a number more of the cars for a Cuban Railroad have passed through in the past few days. The signs on the cars are interesting, but the cars themselves, being new, make a great deal of noise. Council might pass an ordinance to prevent this.

FAIRBANKS

Is Officially Notified of Nomination—Many Republican Notables Attend Ceremonies and Make Short Talks.

Indianapolis, Ind., August 31.—For the second time in his public career Charles Warren Fairbanks today accepted the nomination for Vice President of the United States on the Republican ticket in an address delivered on the lawn of his home. Republican leaders gathered from all parts of the country to witness the ceremony. Mr. Fairbanks was first nominated and elected Vice President on the ticket with Theodore Roosevelt in 1904.

Former Governor A. O. Eberhardt, of Minnesota, was chairman of the notification ceremony, and introduced United States Senator Lawrence Y. Sherman, of Illinois, who made the formal speech in which Mr. Fairbanks received official notice of his nomination at the Republican National Convention in Chicago last June. The addresses were comparatively short and three speakers agreed in saying that there will be a Republican victory at the election. Democratic acts and policies were condemned, and the assertion made that the Republican party offered the only relief.

Among the national leaders who witnessed the ceremony were National Chairman William Wilcox; A. T. Hert, the Western campaign manager, and Ralph D. Cole, chairman of the National Speakers' Bureau. Mr. Wilcox conferred with Indiana leaders of the party and heard reports of what had been done. He expressed himself as pleased with their actions. A rally tonight, at which Mr. Wilcox and Senator Sherman spoke, closed the ceremony. Both the notification and rally were attended by large crowds.
